

After Care Instructions

Melanage Mini Peel

Typical Recovery: flaking or peeling for 3-7 days depending on peel strength

Aftercare Instructions

- At the time specified by your skin care professional, AM PM wash the treated area using Anti-Redness Foamy Cleanser to completely remove melanage minipeel Solution.
- Some patients with more dry or sensitive eyes may experience redness, excess tear production, or other signs of eye irritation while the peel preparation is on the face or for a short time after its removal. Use of an appropriate lubricating eye drop, such as Refresh Plus®, available at most drugstores, is recommended to relieve such symptoms.
- After gently patting skin dry, apply Anti-Redness Soothing Balm.
- AM: Cleanse skin with Anti-Redness Foamy Cleanser. Apply Anti-Redness Soothing Balm (first 2-3 days as needed). Apply Emollient Facial Sunscreen
- PM: Cleanse skin with Anti-Redness Foamy Cleanser. Apply melanage 2 Creme
- Follow instructions for subsequent days as provided.
